The Master Bedroom

Designed by Paige Thornton

Like the living room she also designed for this Florence family, Paige approached the master bedroom with the same strategy, adding only the fresh and subtle hues of pale aqua—the perfect color to create a refuge in this sunny home. Spare lines, soothing art, and timeless accessories set the stage for the most restful of nights and lazy weekend sleep-ins.

A Living Room Inspired by
the Color Cream
Designed by Lynn Coleman

Cream is a timeless color and mixes subtle, timeless elegance with modern chic living. Contemporary pieces contrasted with velvets provide a classic, yet glamorous atmosphere. The simplicity of the color, with cottons and proper lighting, and its versatile nature allow a designer to infuse personal style in any room.
